

# IN 2012: TAKE BACK OUR COURTS

## REPAIR THE BROKEN TRUST

**The state's central court bureaucracy, the AOC, has failed in its core purpose: serving justice and the public. It's time for court workers and our allies:**

- **To take the purse strings away from the AOC.** AB 1208 (Calderon), guarantees that all funding allocated by the legislature for trial courts goes... *to trial courts*, not the central bureaucracy and its slush funds.
- **To pass a budget that puts the public first.** We will fight for every available dollar to be directed first and foremost to serving the public.
- **To end the waste.** Duplicative services, outrageous construction costs, managerial self-dealing, and lavish spending by managers on wine, cocktails, and expensive meals continue, even while court workers are facing layoffs, give-backs, and furloughs. We're dedicated to fighting waste this year wherever we see it.
