

ALERT! KNOW YOUR RIGHTS AS PUBLIC SECTOR WORKERS WHEN DEALING WITH IMMIGRATION OFFICIALS

As public sector workers in state, county and city agencies, school districts, public hospitals, libraries and courts you play a vital role interacting with the public and sometimes have access to databases with personal information.

As a result, your worksites and the information you gather may be sought out by Immigration and Customs Enforcement (ICE). This coupled with the uncertainty about how the current presidential administration will be enforcing immigration laws has led to a lot of confusion and questions by workers like you.

As a result, we have created two options for you to learn your basic rights as public sector employees:

- **Text RIGHTS to 52866** from May 29th through June 10th and you will receive a special number that you can call 24 hours a day to hear basic pre-recorded information about what your rights as public sector workers when dealing with immigration officials at your worksite. If you have follow-up questions following the call, you can go to www.AskSEIU.org to submit your questions.
- Download the **Public Sector Worker Immigration Tool Kit** here:
