After a year of working within the district, I was able to develop friendships and make great connections, which allowed me to be voted in as the president of my chapter in a little over a year. Working in the corporate world before and working with the union now has shown me that we are chosen to be leaders by our members so they are given a voice that they may never have had."

"Since 2013, I've been a school bus driver for Cupertino Union School District. I decided to become a Union Representative because I believe workers should receive fair treatment, wages, benefits and I enjoy improving the work place environment. One victory that is especially personal for me is healthcare insurance coverage we won for our members. Our members now enjoy better rates, thus allowing them to chose better healthcare coverage for themselves and their family. As a mother, I fight to make the workforce better for my kids and the next generation. Thank you."

— **Maria Fernandez**, Bus Driver, Cupertino Union School District

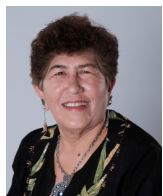

"SEIU staff since 2017 and participated in union organizing campaigns in 3 different states in grocery, healthcare, public sector, and private sector non-profit. One thing I have learned is unions live and die on their level of democracy. As a delegate to the SEIU convention I will forcefully represent the voice of 521. I will be reporting back to my stewards regularly, ensuring they can communicate to members. The resolutions passed at this convention helps shape our strategy to bring about our unrealized potential. I will fight to make sure that is done as powerfully as possible."

— **Jessen Fox**, Internal Organizer, SEIU Local 521 Staff

I have always fought for the rights of my Union brothers and sisters and been a voice when they have had to remain silent. Through the years I have fought this fight in many ways - including participating, educating, organizing, and representing.
